

Severe Duty Air Induction System Retrofit Kit 1999*-2003 Ford F250-550 or Excursion with 7.3L Power Stroke® Diesel Engine

This retrofit air induction system kit is ideal for truck owners who operate their vehicle in dirty and dusty conditions and want longer filter service life and improved engine protection.

- **Three times or more efficient compared to average conventional pleated or reusable wire mesh filters**
- **Straight-through airflow delivers powerful performance**
- **Improved engine protection: no media movement, expansion, contraction or bunching**
- **Improved contaminant encapsulation: during service, the dust and dirt stay contained in the filter**
- **Installs in 30-45 minutes**

* Built after January 1, 1999

Donaldson®

Donaldson PowerCore Filtration Technology... the innovation that's delivering improved filtration performance!

Donaldson has been manufacturing air cleaners with PowerCore Filtration Technology since 1999. Over one million units have been installed on various types of heavy-duty diesel powered equipment.
